byRisk project

Helping SMEs Identify and Assess Privacy Risks
Raising Privacy Risk Awareness among the Public

Project website: https://byrisk-project.eu/
Email: byRisk@byrisk-project.eu

byRisk project

byRisk project

The partners

The byRisk Consortium is made up of three partners: The Hellenic Data Protection Authority (regulatory authority), the University of Piraeus Research Center (academic institution) and ICT Abovo (software industry).

The goals

The byRisk project aims to:
» **Help SMEs** assess privacy risks in data processing.
» **Raise awareness** of privacy risks among SMEs and the wider public..

Focus on SMEs

» by developing a taxonomy of privacy risks and effective communication channels for SMEs and data subjects.
» by creating a context-aware Risk Assessment Tool for intuitive privacy risk identification and analysis.

Focus on the Public

» by developing a Risk Awareness Tool to educate the public on privacy risks using visualizations and recommended safeguards.

About the project

The byRisk project is funded by the European Union's Citizens, Equality, Rights and Values Programme (CERV) under Grant Agreement No. 101193352. It is coordinated by the Hellenic Data Protection Authority. The project is scheduled for completion in November 2026.

Timeline 2026

- **March-June**: 4 awareness seminars for the general public.
- **April-May**: 2 awareness seminars for university students.
- **June**: 2 awareness seminars for ICT professionals.
- **July-September**: 2 awareness seminars for SMEs.
- More details in Newsletter 3.

☞ The online data protection assessment tool for SMEs and the awareness tool for the general public are currently being updated. The Greek-language versions of the content are also under development.
