Email: byRisk@byrisk-project.eu

byRisk project

byRisk project

The partners

The byRisk Consortium is made up of three partners: The Hellenic Data Protection Authority (regulatory authority), the University of Piraeus Research Center (academic institution) and ICT Abovo (software industry).

The goals

The byRisk project aims to:
» **Help SMEs** assess privacy risks in data processing.
» **Raise awareness** of privacy risks among SMEs and the wider public..

Focus on SMEs

» by developing a taxonomy of privacy risks and effective communication channels for SMEs and data subjects.
» by creating a context-aware Risk Assessment Tool for intuitive privacy risk identification and analysis.

Focus on the Public

» by developing a Risk Awareness Tool to educate the public on privacy risks using visualizations and recommended safeguards.

About the project

The byRisk project is funded by the European Union's Citizens, Equality, Rights and Values Programme (CERV) under Grant Agreement No. 101193352. It is coordinated by the Hellenic Data Protection Authority. The project is scheduled for completion in November 2026.

Timeline 2026

September
- Both tools are fully functional and available in Greek and English.
- The training materials used in the seminars are also ready.

October
- All seminar participants were invited to explore and evaluate the tools through a dedicated questionnaire.
- Feedback collected will be taken into account for updates and improvements.
- The project will be briefly presented at the HDPA 2nd Research Community Dialogue Day.

November
- An international online conference will be organised to present the project results.
